

Shelby County Tennessee

Mark H. Luttrell, Jr., Mayor

Questions & Answers

Issued: February 23, 2016

RFQ 16-002-41

“SLEDGE ROAD OVERFLOW BRIDGE SHELBY COUNTY ENGINEERING DEPARTMENT”

TO ALL PROSPECTIVE BIDDERS:

The following questions were submitted by potential vendors. Our answers are listed in **red** below:

Questions:

- 1) “Should we anticipate preparing NEPA documentation (e.g. will Federal funds be utilized)?”

This project is funded through State-Aid funds. NEPA will not be necessary for this project. Environmental permits such as Aquatic Resource Alteration Permit (ARAP) will be necessary.

- 2) Should the attached Proposal Response Sheet be included in our submittal and if so where?

The proposal response should be included in the front of the proposal

- 3) Your RFQ does not mention the need for soil borings or geotechnical analysis. Are we to assume the County will provide that information?

Any geotechnical analysis necessary for project design will be negotiated with the selected consultant.
